

THE CHINOOK ADVANCE

Vol. 22

Chinook, Alberta. Thursday, December 7th 1944

CARD OF THANKS

We greatly appreciate the kind expression of sympathy and for the lovely contribution of flowers from Chinook community.

Mrs. Aarsby and family

A Church of England service will be held in the School on Sunday, Dec. 10th at 10:30 a. m.

Mr. Albert Carlson left on Wednesday morning for Portland, Oregon, U. S. A. where he will spend the winter with his son and family.

Mrs. J. F. Damsgard who has been in Calgary with her daughter, Evelyn who was ill in the hospital, returned on Wednesday.

Mr. John E. Cooley left on Wednesday night for Lugewood, California, U. S. A. where he will spend a month visiting with relatives.

Men, Women Over 40 Feel Weak, Worn, Old?

Want Normal Pep, Vim, Vitality?
Does weak, run-down, exhausted condition make you feel aged out, add 700 years. Contains natural blood, vitamins, etc. which react with the body to give you normal pep, vim, vitality. The only one of its kind. Take only 10c. for sale at all good drug stores everywhere.

SEEDTIME and HARVEST
By DR. K. W. NATHY
Director
Live Elevators Farm Service
Winning, Manitoba

Wheat Varieties in 1944
It looks as though the wheat varieties now recommended in the Prairie Provinces have pretty well settled down. A few interesting comparisons between provinces follow.

Manitoba
Recent increased sharply, from 24.7% in 1943, to 34.9%. It now threatens the supremacy of Thatcher which fell from 45.0% in 1943, to 32.2% this year. Renova declined from 19.5% to 16.6%.

Saskatchewan
The picture in Saskatchewan is simple. Thatcher continues to increase at the expense of all other varieties. Even Regent fell off a little this year. One interesting exception to this statement deserves attention. Our old friend Garnet is on the increase in the north. In Zone 4, the grey wooded soil area, Garnet increased from 2.2% of the acreage in 1943 to 6.2% in 1944. This development is even more pronounced in Alberta.

Alberta
Though Red Bobs continues to slip a little, it is still the most popular variety in Alberta by a wide margin. This year, it occupied 44.2% of the acreage. Thatcher increased from 14.0% in 1943, to 16.4% this year. Marquis declined from 30.1% to 27.3%. This year, Garnet occupied 6.0% of the Alberta acreage; last year, only 2.7%. In Zone 3A, the grey wooded soil area, less than River Block, Garnet increased from 13.5% to 28.0%.

The above figures are comparable with those published in this column last year. They are unweighted averages of elevator agents' estimates. They do not check with the figures in Circular No. 7, which is checked by field wheat acreage at shipping points. The differences do not materially affect the conclusions we have made.

OBITUARY

Mr. Richard Stewart Passed Away Dec. 2nd In Calgary

Services will be held in Park Memorial chapel Tuesday at 2 p. m. for Mr. Richard Stewart, 69, 273 Bow Crescent, who died Saturday at his home. Rev. Cyril Hutchinson officiated.

Born in Owen Sound, Ont., Mr. Stewart came west to Chinook in 1915, where he farmed until moving to Rainier in 1939. He retired this year.

Surviving are his wife, Minnie, Bowness; One son, Harold, Welland, Ont. three brothers, Norman D. Vermillion; Edward, Edmonton; and David, Vancouver; four sisters, Mrs. J. A. McKenzie, Mrs. M. McKenzie and Mrs. H. Hunter, all of Regina, and Mary E. Stewart, Long Beach California.

Mrs. Stewart has the deepest sympathy of all Chinook friends.

From PUBLIC RELATIONS OFFICE M. D. 13

Since March last there has been shipped overseas an average of 100,000 magazines a month from the various magazine depots across the country, military authorities in Calgary announced today. The Alberta quota is 4,000 a month, and has always been maintained or bettered by the magazines' depots of Calgary and Edmonton who have worked faithfully and voluntarily at the task.

The majority of these magazines are less than one month old when shipped.

The magazines go via Red Cross to the assistant Director of Auxiliary Services, London, England, who is responsible for their distribution overseas.

In addition to the foregoing the Kinsman Club working in conjunction with the Magazine Depot, ship tons of magazines to the Navy League, and Merchant Marine. These shipments are largely made up of less current magazines.

Individuals may take magazines to any Post Office where they are forwarded free of charge, to the Magazine Depot, and are then despatched overseas.

Individuals are not permitted to send magazines except by paying a subscription and the magazine is then forwarded by the publisher.

Scientific Leadership

DURING THE PRESENT WAR, and for many years preceding it, the German nation has enjoyed a reputation for outstanding ingenuity in the realm of science and invention. This reputation has been entered by the Germans, themselves, and they have attempted in every possible way, to spread the conviction that they are leaders in the propagation of new ideas. This has been especially true during the war, when they have constantly drawn attention to their supply of new and "secret" weapons. This has no doubt been part of their attempt to wage a "war of nerves," and it has served to build up an erroneous impression in many minds as to the real extent of German initiative along these lines. However, it has been demonstrated that German superiority in this, as in numerous other matters, has been greatly overestimated.

No Foundation For Statements

Mr. James Irvine, Principal and Vice-Chancellor of St. Andrew's University, Scotland, visited Canada a short time ago. Sir James is, himself, a noted scientist, and in addresses delivered during his stay in this country, he dealt with the subject of Germany's self-styled leadership in this field, and showed that it was a claim which "lacked any reasonable foundation." It is conceded that the Germans have been most clever at converting ideas, borrowed from scientists of other nations, and proclaiming them to be original, but it has been demonstrated many times over that the Allied nations possess vastly superior scientific and inventive genius. For security reasons, little is known of many of the greatest discoveries of the present day, but events have already shown that from within the British Empire, the United States, Russia and other Allied nations has come the means of matching and overpowering the mighty German war machine.

Allies Proved To Be Superior

There is one great event which has proven beyond all doubt, the superiority of Allied scientific and mechanical developments. That event was the successful landing of the invasion armies in Europe last June. So many elements combined to make that gigantic undertaking possible, that no special one can be singled out for particular credit, but some facts recently made known by the British Ministry of Information, show that ingenuity in dealing with many of the major difficulties, contributed much to the success of the venture. One of the greatest problems lay in getting stores and equipment ashore without damage from the sea water. For this reason, a secret water-proofing process was used which made possible the safe landing of cargoes, without damage from water. In addition there were the great floating bridges, which were installed on the French beaches, and the "Bailey Bridges," collapsible bridges, named after the British engineer who developed them. These, and many other devices helped to make the invasion possible, and proved beyond doubt that leadership in science and invention does not belong to the German nation.

British Brides

"Happy Birthday" Cables Seem To Mean Something Else

A British bride who married a Canadian soldier in England and has since come to Vancouver to live with her husband's parents is still laughing about an incident in Eastern Canada. A sister whom she had not seen for some years met her at the C.N.R. central station in Montreal. Immediately upon arrival, the English bride ran to the telegraph desk along with a number of other brides and all sent "Happy Birthday" cables to England.

The sister was quite puzzled and couldn't understand how so many girls could have relatives or friends with birthdays at the same time. However, she soon realized that people use the code "Happy Birthday" to mean "I arrived safely and am happy and well."

NEW AIR SERVICE

Five British shipping companies, with a capital backing of £20,000,000 (about \$90,000,000) have formed British Latin-American Air Lines Limited to give a war air service between Britain and South America in two days, the Daily Express said.

The "Step Pyramid" of Egypt is estimated to be 6,000 years old making it the oldest large structure in the world.

Submarine Chasing Jap Ships Has Kangaroo Hunted On Bow

Somewhere on the prow of Japanese shipping in the Pacific is a half-bred submarine with a kangaroo mounted on its bow.

The submarine is the Growler which tangled with a Japanese cruiser at close range and the cruiser rammed her. Although seriously damaged the submarine escaped to an Australian port.

In disclosing the story, Francis B. Forde, acting prime minister, said Rear Admiral Carpenter, then South Pacific navy commander, first thought the submarine would have to undertake a dangerous voyage to the United States for repairs. But a Brisbane shipbuilding firm undertook the job and fitted a new bow on the Growler, with a kangaroo attached for good measure and as a symbol of Australian engineering skill.

Would Keep Fresh

Apples In Cold Storage Could Be Used The Year Round

In the case of apples, cold storage plants will make it possible to market the fruit throughout the year. They are particularly welcome in holding over McIntoshes. The ordinary circumstances, McIntoshes have to be marketed soon after being picked and packed or they lose their flavor and become tough skinned. Put away in cold storage, however, they can be kept until the next summer in as fresh and sweet a condition as when they were packed. Nice fresh apples the following spring and summer at prices at which the housewife can afford to use them for baking as well as eating as a fruit, may thus be an established fact. With cold storage, there need be no gap between crops, and so thousands of barrels of additional apples could be marketed.

Ancient Greek and Roman sculptors produced many masterpieces in terra-cotta, or burnt clay.

Koreans developed movable type 50 years before Gutenberg printed the Bible.

Flying Cross Awards

Names Of Westerners Appear In The Following List

In one of the latest lists of awards announced by Air Force headquarters, the following Western airmen have been awarded the Distinguished Flying Cross:

FL. J. A. Enns, son of Mr. A. P. Enns, Le Sage, Manitoba.
FO. H. D. Frith, son of Mrs. Mabel S. Frith, Vancouver, B.C.
FO. T. Hawthorne, son of Mr. J. T. Hawthorne, Vancouver, B.C.
FO. R. G. Herbert, son of Mrs. Gordon D. Herbert, Kelowna, B.C.
FO. J. Kneak, son of Mrs. Mary Kneak, Winnipeg, Man.
FO. J. J. McGilivray, son of Mrs. Mary McGilivray, Kiaso, B.C.
FO. R. J. Meek, C.G.M., son of Mr. R. H. Meek, Vancouver, B.C.
FO. W. S. Hatterson, son of Mrs. Mary Patterson, Neepawa, Man.
FO. J. K. Perry, son of Mr. Melville W. Perry, Hawarden, Sask.
FO. D. H. Popplestone, son of Mrs. Alma R. Popplestone, Pilot Mound, Man.
FO. V. W. Poushinsky, son of Mrs. Nina Poushinsky, Calgary, Alta.
FO. T. H. Pringle, whose wife, Mrs. A. Pringle, resides at Regina, Sask.
FO. J. P. Rennie, whose wife, Mrs. J. N. Sinclair, resides at Vancouver.
FO. K. Scholtz, son of Mr. A. C. Schmitz, Humboldt, Sask.
FO. J. K. Shedden, son of Mr. D. K. Shedden, Calgary, Alta.
FO. J. H. Sinclair, whose wife, Mrs. J. N. Sinclair, resides at Vancouver.
FO. C. M. Singleton, son of Mr. J. M. Singleton, Saskatoon, Sask.
FO. E. C. Slessor, son of Mrs. J. D. Slessor, Winnipeg, Man.
FO. E. A. Torgerson, son of Mrs. Clara Torgerson, Chedoke, Alta.
FO. T. S. Wright, son of Mr. J. B. Wright, Vancouver.
FO. E. J. D. Bill, son of Mr. Percy Edward Bill, Vancouver.
FO. D. L. Brewer, son of Mr. L. D. Brewer, Vancouver. (Reported missing October 16).
FO. O. J. M. Burns, whose wife Mrs. Lillian Burns, resides at Edmonton.
FO. A. W. Code, son of Mr. and Mrs. W. G. Code, Phippen, Sask.
FO. D. D. Dakin, whose wife, Mrs. M. M. Dakin, resides at Kimberley, B.C.
FO. G. Dykes, of Saskatoon.
FO. E. Ford, son of Mr. J. H. Ford, Kelvington, Sask.
FO. C. G. Gordon, whose wife, Mrs. P. H. Gordon, resides at Calgary.
FO. R. T. Gray, son of Mr. Thos. Gray, Indian Head, Sask.
FO. G. F. Hartford, son of Mr. T. H. Hartford, Vancouver, B.C.
FO. M. L. Husband, son of Mrs. Frances A. Husband, Robson, B.C.
FO. W. T. Krantz, son of Mrs. E. A. Krantz, Wadena, Sask.
FO. J. B. A. Lamoureux, son of Mrs. Emeline Lamoureux, Edmonton.
FO. P. E. Liwski, son of Mr. John Liwski, Gilbert Plains, Man.
FO. E. E. Michael, son of Mr. Louis Michael, Gleichen, Alta.
FO. W. D. Miller, son of Mr. W. D. Miller, Red Deer, Alberta.
FO. H. C. Redmond son of Mr. W. C. Redmond, of Edmonton, Alta.
FO. K. P. Rollo, son of Mrs. K. P. Rollo, resides at Calgary, Alta.
FO. A. M. Scott, son of Mr. G. W. Scott, of Edmonton, Alta.
FO. J. W. Stewart, son of Mr. Frank J. Stewart, Prince Albert, Sask.
FO. J. S. Titus, son of Mrs. A. A. Titus, Wellwood, Man.
FO. E. G. Vaughan, son of Mr. J. H. Vaughan, Cumberland, B.C.
FO. G. W. Ward, son of Mr. and Mrs. J. B. Ward, Winnipeg.
FO. K. S. Weir, son of Mrs. Annie Weir, Trail, B.C.
FO. W. B. Burton, son of Mrs. U. Burton, Zealandia, Sask.

Awarded Distinguished Flying Medal
FO. D. T. Mitchell, son of Mr. T. Mitchell, Tyron, Sask.

FO. S. J. Soslak, son of Mrs. R. Soslak, Transcona, Man.

Number Of Calories Needed Every Day Depends On Age And Activity

With whom do your calories keep company? Are they snooty — keeping to themselves, or do they keep company with other foods which contribute such elements as iron, calcium and vitamins to the diet? The Nutrition Division, Ottawa, urges Canadians to remember the other elements as well as calories when choosing foods.

A calorie is the measuring unit for energy, just as a yard is the measuring unit for cloth, and the number of calories needed every day depend on age and activity. Growing children and physically active people need more calories than older people or those who sit at a desk all day. However, too many calories can be "unbalanced" anyone's diet and add unwanted pounds.

Granulated sugar and fats add calories to the diet and very little of the health protective elements. Potatoes, on the other hand, add iron and vitamin C as well as calories. Cheese is fairly high in calories, but is also an excellent source of protein and calcium.

While calories are necessary for energy, the most important foods are those which along with calories contribute a share of the other daily needs. Milk, eggs, fruit, vegetables and whole grain cereals supply these needs.

An automobile uses 50 per cent. less gas at 30 miles an hour than it does at 60 miles per hour.

In 1825, Sing Sing prison was known as Mount Pleasant prison.

Price Control And Rationing Information

Q—Is there a limit to the amount of rationed commodities that may be sent overseas in parcels?

A—The Ration Administration does not set a limit on the amount of sugar, preserves or butter which can be sent to a soldier, sailor or airman, provided these commodities have been legally acquired. Of course, Postal Department regulations must be adhered to when sending overseas parcels.

Q—Is it necessary for the stub which is attached to each sheet of coupons in ration book 5 to be completely filled in?

A—Consumers should remember to fill in the stub attached to each sheet of coupons in your ration book. The name and address of the owner of the book should be placed on one side of the stub, and the serial number of the book is placed on the reverse side.

Q—Is it true that I may collect only one butter coupon every two weeks from my boarders?

A—Yes. Under revised regulations managers of hotels, boarding houses, small establishments must collect only one butter coupon every two weeks from each of his guests.

Q—Do grocery stores have to have the prices marked on their foods?

A—Yes. All foods on display in grocery stores must have their prices marked on display in windows, must have the prices marked either on the food, the container or on a card displayed with the food.

Q—It seems to me that I get a smaller butter in my favourite restaurant than I used to. Have restaurants been allowed to cut their servings?

A—In many cases, restaurants have been forced to cut the size of their portions because of the butter shortage in this country is acute. After all, consumers get less butter from now until Christmas and it is only reasonable to expect less in restaurants.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your calling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

Help Wounded

British Women Are Doing Their Best For Wounded Soldiers

To repay the kindness and sympathy shown to the British women of Canada and the United States, women in England who live near military hospitals are doing their best to help the wounded.

Hospitality committees have been organized in every region to visit and help those who are patients. Friends can't come and see them. Many hospitals like music and lectures. Give clubs visit the wards. Film showings are also arranged.

As the men are able to be up and around, every attempt is being made to bring those with common interests together. Country homes are thrown open for picnics.

As one English woman put it "Just as the Allies have co-operated in the factories, workshops and on the battlefields, so they are co-operating in helping to put men back on their feet and to counter the ill-effects of war."

Still On Top

German Radio Spokesman Says Hitler Is Guiding History

A spokesman of the German home radio, who has been quoted by the foreign theories about Hitler's silence.

"Enemy and neutral papers are still agitated over the fact that the Fuehrer did not speak Nov. 9 as he always used to do," he said.

"The very clear and understandable explanation that work does not permit him to leave his headquarters does not satisfy them."

"They work for mysteries and are pouring out fairy tales. There has been a lot of mud-slinging but it will not last. Adolf Hitler, who stands high above his detractors."

"Whether he talks or remains silent he will always be the centre of interest. He guides history and impresses his stamp on the age."

The watermelon has been cultivated since ancient times.

For Eczema—Skin Troubles

Making up your mind today that you are going to get rid of your skin troubles and get on to any good drugstore today and get an Ointment of Eczema. It is highly concentrated.

After very first application will give you relief—the itching of Eczema is quickly stopped. It dries up and scales off in a very few days. The same is true of Eczema on the face, neck, chest, back, arms and other skin troubles.

Remember that Eczema Ointment Oil is a clean, powerful, penetrating Antiseptic Oil that does not irritate or leave a greasy residue. Complete satisfaction or money back.

Big Thing For China

Oil Pipeline From Calcutta Will Be Longest In World

The pipeline which American Air Engineers are building across 2,000 miles of jungle, river and mountain into China is probably the most effective means of aiding that hard-pressed nation which we have yet devised. When Big Inch was rushed through here at home to relieve the Atlantic Coast oil shortage we considered it a remarkable achievement.

This latest link to China will not be several hundred miles longer than Big Inch, but laid over territory infinitely more forbidding, under conditions just next to impossible. When completed it will be the longest pipeline in the world. Nine months ago construction was started at Calcutta where the great tankers from the Persian Gulf roll in across the Indian Ocean. Thence it winds up the Brahmaputra Valley into the country of the Naga Hills head-hunters and over the steep Patkai range into northern Burma. There is already discharging more oil of every variety than our flares in that area can use. Eventually it will be carried into central Yunnan, perhaps beside the Ledo Road, which it parallels for many miles. The pipeline, however, should reach China well before the road does.

Its six and four inch steel piping has double the fuel-carrying capacity of the highway itself. It has cut the perilous "over the mountain" air route by almost two-thirds, relieving plane transport throughout the Burma theatre. Even now it is delivering fuel for our Fourteenth Air Force and the B-29's of our Twentieth Force. Under full flow it will be a lifeline transfixing into China a new strength that should change the course of the war on the continent of Asia.—New York Times.

Clearing Mines

Clearance Work Is Slow And Dangerous On Britain's Beaches

Despite strict precautions 19 officers and men in one command area alone have been killed in the last six months while clearing Britain's beaches of mines soon to guard against invasion.

Clearance work is slow and dangerous. The number of skilled men is reduced by the overriding needs of European operations and many troops have been moved by the tide. Some mines have been buried under several feet of sand and others have exploded during four year's exposure to the elements so that the exact number remaining is not known.

Explosions, it is stated, may be expected for some years to come.

HAS PROUD RECORD

Saturday, December 2, The Times of London issued its 50,000th consecutive edition. For nearly 180 years the Times has never missed a single issue except on New Year's Day.

Remember that Eczema Ointment Oil is a clean, powerful, penetrating Antiseptic Oil that does not irritate or leave a greasy residue. Complete satisfaction or money back.

A whitesmith is a man who works in iron.

Report Encouraging

Shows Health Of British People Better Than Before War

The health of the nation is better now than it was before the war, the British health ministry's report for the year ended last March 31 revealed.

An influenza epidemic in the fall of 1943 killed 30,000 persons, most of them elderly, but many other diseases claimed fewer victims, including typhoid, diphtheria, epilepsy and appendicitis.

For women deaths from tuberculosis was the lowest ever recorded but for men the number was four per cent. above 1938. The birth rate was the highest in 15 years with 683,213 births recorded.

SMILE AWHILE

Heroin (frantically) — Is there no success?

Voice From Audience—Sure! I paid two bits to see this show.

"Well, Mrs. Wagg, did the election turn out the way you expected?"

"Oh, yes. I was afraid all the time it wouldn't go like I said it would. And it didn't."

"Who was that you were talking to for a whole hour at the gate?" asked Mr. Simpson.

"That was Mrs. Smith. She hadn't time to come in," replied his wife.

Mother—No, you can't have any more candy. Haven't I already told you no six times?

Son—Well, all right, but I wonder where dad gets the idea that you're always changing your mind.

Army Sergeant—Have you any preference?

Draftee—Yes, sir.

Army Sergeant—What would you like to be?

Draftee—An ex-serviceman with a pension.

They were entertaining the vicar to lunch, and the guest remarked to the small boy of the house, "Don't you ever say prayers before your meals, my child?"

"Oh, no," said the child. "Dad says our cook's pretty reliable."

Barber—Here comes a man for a shave.

Apprentice—Let me practice on him.

Barber—All right, but be careful not to cut yourself.

Dinner—Waiter, do you have any steaks left?

Waiter—Not at the moment, sir, but wait just a few minutes. I think that gentleman over there will be sending his back.

Sammy—Papa, vat's a vacuum?

Papa—A vacuum is a void.

Sammy—I know, papa, but vat's the void mean?

The visitor going round the penal settlement came upon a convict making sacks.

"Good afternoon," said the visitor.

"Sewing."

"No," was the reply. "Reaping."

"What is the title of your new book?"

"My Wife and I."

"Oh, another war novel!"

"Yes, my fiancée takes me to the museum every Saturday."

"Really! What is he studying?"

"Economy."

Where Credit Is Due

Los Angeles Man Pays Tribute To British Bulldog Courage

Wesley Ruggles, back from nine months in England, is less impressed by what the British owe to us than what we owe to them. He is convinced that if it hadn't been for their grim, bulldog courage we, instead of them, now might be suffering from robot bombs.

"Rene was spared and Paris was spared," he says, "but there has been no sparing of London. Its ordeal began in 1940, when England was losing the war, and it took a brave people to stand up under it. When we began winning the war the people rejoiced and thought it was all over. Then the robots began. Air raids had lasted a few minutes to a few hours, but the robots kept coming day and night, killing more persons than were killed in the invasion of Normandy. They could sleep or rest between air raids but the robots would come all night long. They would gamely go to their jobs and carry on all day. The blasts were so terrific that often they did damage a quarter-mile away. I saw a motorbus which had been blown into the second story of a building by one."

"When I left London 1,000,000 buildings had been damaged by them, and many thousands completely destroyed. When I saw the devastation I couldn't help thinking that if England hadn't stood staunch when all the rest of Europe gave up we really might have had attacks on our own shores."—Los Angeles Times.

HAS LARGE COLLECTION

Mildred Huffman, of Muncie, Ind., owns more than 1,000 dogs, but doesn't worry about feeding them, for they are all potter, teckwood, fide or china. She believes that her collection is about the largest of its kind in the country. Included is one of the six pair of Staffordshire china dogs formerly in the royal palace of George IV of England.

Unlike most active volcanoes, Hawaii's are harmless, because the lava flows very slowly and the streams can be controlled.

This 20-page booklet every woman will want...

The new Kellogg's "Weight Control Plan" gives you vital facts on menu planning and holding your "ideal" weight. Scientifically prepared weight-control menus (at three calorie levels) for every day in the week. Prepared by competent authorities, this booklet can help you and your husband look your best, feel your best.

You will find the new Kellogg's "Weight Control Plan" packed inside the top of every package of Kellogg's ALL-BRAN—the delicious food that aids natural regularity. Get your copy at your grocer's now.

OUR COMPLETE SHORT STORY—

The Siamese Rickshaw

By GEORGE CHERNISH

McClure Newspaper Syndicate

I pushed open the door marked "War Department" and found Jim Saylor, my chief, staring moodily out a window. He swung round when I entered. "I've a little job for you," he said. "It's unusual, but I think it's worth a try. Remember that Chinese crank who used to pester us?"

I nodded. The chief was referring to an old Chinaman named Tai-Lin, who had besieged Washington officials for years with scatterbrain inventions.

"He went mad the other day," Saylor continued. "They put him in an asylum, but he's still clinging about a secret explosive. Claims he's discovered a powder ten times more potent than the best in existence."

I laughed. "No wonder they locked him up."

Saylor frowned. "He's really off his head, but I'm inclined to believe at that explosive yarn. I know it sounds foolish, Jordan, but in these times of stress we can't take any chances. Suppose there is such a formula? And suppose an enemy agent got wind of it?"

"I agree with you there, chief," I said.

"Unlike most of his race," Saylor went on, "Tai-Lin lived alone. In an old stone house in Shepherd's Marsh." He paused for a moment, his gray eyes regarding me keenly. "I want you to take Picking and search that house from top to bottom. Keep your eye out for old papers, or a blueprint."

"O.K.," I said shortly. "We'll leave at once."

Picking was more enthusiastic about the assignment than I was. But he was still a little green, and didn't know cranks as a veteran does.

It took us three hours to drive out to the old Chinaman's dwelling. Made entirely of stone, it lay at the edge of a huge half-frozen marsh. There was no bush nor brush of any kind, for miles around. We went inside and kindled a blaze in the old fireplace, for it was cold out here at this time of year.

All that afternoon we searched, but there were very few possible hiding places for a blueprint. Gradually grew disgusted with the job. And then I came across the rickshaw, an ancient, wobbly affair, it stood in one corner of the attic, covered with cobwebs. Vaguely I recalled something about Tai-Lin's importing it from Siam, where his grandfather had hauled it through the streets of Bangkok for his daily bread.

As I stooped over to examine it, Picking's voice belled from below: "Hey, Tom! I've found it! The blueprint!"

I tore out of that attic like a typhoon. Picking was standing in front of the fireplace, his lips moving silently as he perused the old Chinese brush figures. "It was stuck in a crack," he told me breathlessly, "below one of the window sills. We'll need a translator to decipher it."

I nodded and said, "We're not sure this is it, though. You'd better stay here and keep on searching while I take it into town."

He scowled a little. "Step on it, then. We're almost out of wood, and it's getting colder every minute..." The big clock atop the city hall was striking ten in the evening as I pulled to a stop before my chief's residence. He was more enthusiastic than I when I showed him the blueprint. "Come on!" he cried, grabbing his hat and coat. "We'll get Yan-Po out of bed!"

It wasn't necessary, however, to get Yan-Po out of bed. The young Chinaman was seated in his hotel room, poring over a map of the Philippines. He was one of the many translators in the employ of Uncle Sam.

I stiffened as Yan-Po said: "From my knowledge of explosives, I would say that this is a most powerful formula, indeed... it mentions here a duplicate of this print contained in the shaft of a rickshaw."

"It's in the attic of the old house," I told them. "I was looking it over when Picking found this."

Then things really started. The door swung open and three men hurried themselves upon us. Simultaneously, four more came leaping through the windows. I had the presence of mind to grab the print and rip it to bits. I flung the pieces out a window before they finally overpowered me.

Their leader, a tall fellow with a foreign accent, ordered us bound and

MISERIES OF Baby's Cold Relieved As He Sleeps

Now... here's reliable home-proved medication that works 2 weeks for relief of distress of child's cold—even while he sleeps! Just rub throat, chest and back with Vicks VapoRub at bedtime. Instantly VapoRub starts to relieve coughing, sneezing, nasal muscular soreness or tightness, and invite restful, comforting sleep. Often by morning, most of the misery is gone.

For babies, try VapoRub tonight. It must be good, because when colds strike, most mothers use Vicks VapoRub.

gagged. "Very careless of you," he told me. "First, you allow yourself to be followed, and now you destroy a formula whose duplicate we can easily reach. To the rickshaw, men!" he barked. In a moment they were gone.

Shortly after dawn, a bellhop came in to investigate the unanswered ringing of our telephone. Within ten minutes we had a dragnet under way, but all of us viewed the situation as hopeless. It required only three hours to reach Tai-Lin's country home, and five had elapsed since the foreign agents had left. I shuddered as I remembered Picking. One against seven...

Yan-Po was sorrowful. I can remember the formula," he told us, "but how much better it would have been to keep it to ourselves!"

"Yes," our chief said. "I guess we can all kiss our jobs good-bye." Later, when we arrived at the old stone house we learned from the cop in charge that Picking had been bound and gagged. The chief and I dashed up to the attic. But the rickshaw was gone. Saylor's face fell. "Took it with them," he grunted. I could only nod.

Although Picking had been badly beaten, he managed to grin when he saw us. "You're a fine one," he snapped at me, "leaving me out here without a stick of wood. It got so cold I had to burn the old boy's rickshaw—or freeze to death!"

This Week's Pattern

4703
2-10

By ANNE ADAMS

Your little "charmer" will love this charming outfit. Pattern 4703 is a 2-piece dress, a suit or a jumper with blouse. Flower comes in sizes 2, 4, 6, and 8. Size 6, jumper and jacket, 1 1/2 yards 54-inch fabric; blouse, 1 yard 35-inch.

Sand twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 100 McDermott Ave. E., Winnipeg, Man. "Because of the slowness of the mails delivery of our patterns may take a few days longer than usual."

A BIRD'S APPETITE

"Eating like a bird" is a phrase often used to describe persons of delicate appetite, but, according to zoo keepers, birds eat more in proportion to their weight than any other of the zoo inhabitants.

YOU WOMEN WHO SUFFER FROM HOT FLASHES

If you suffer from hot flashes, weak, nervous irritability, are a bit blue at times—due to the functional "middle-age" period peculiar to women—try Lydia E. Pinkham's Vegetable Compound to relieve such troubles. It helps restore normal blood circulation. Write today!

Saskatoon's Two-Plane Team Thrills Musical Audience In Toronto

(By Hector Charlesworth)

A two-plane team of the first rank, new to the local public, was heard at Eaton Auditorium recently, and roused the sincere enthusiasm of a very musical audience. Rumors have been reaching Eastern musical circles of the remarkable achievements of two natives of Saskatoon, Evelyn Eby and Reginald Bedford, whose concerts had won favor in both the Canadian and American West, and had been lavishly praised in Chicago. They are pupils of a Mr. Gustin of Saskatoon, a veteran teacher who has done much for musical progress in Saskatchewan. They played together as children, and subsequently Miss Eby studied with the great pianist, Josef Lhevinne, and Mr. Bedford with Percy Grainger.

Mr. Bedford was recently appointed principal of the Hamilton Conservatory of Music, and Miss Eby has joined its staff, in order that they might continue their concert work together. A number of Hamiltonians came for their Toronto debut.

Both artists possess large and beautiful tone, and a completely new in the resiliency of finger technique. In addition, they are profoundly musical in their intuitions. Their coordination is perfect in spirit and finesse. With them the musical line is never broken for the infinitesimal part of a second; and their fervor and enthusiasm rouse delight.

Certain numbers on the program called for deep interpretive feeling and virtuosic accomplishment. One was Brahms' "Variations on a Hymn Theme," of which the composer made both an orchestral and two-plane version. The theme itself is one of the noblest conceivable, and on it Brahms based a set of eight superb and entrancing variations. Every nuance was beautifully and thoroughly presented, and there was orchestral grandeur in the enunciation of the theme. The rhythmic subtlety of the order and complete technical mastery marked two of Rachmaninoff's most difficult compositions: a Barcarolle and a Valse. The most brilliant display of all was in Saint-Saens' Scherzo, immensely difficult, but, as they played it, thrilling in fire and radiance.

Among many shorter offerings was a unique novelty, "Jeux de Plein Air," by Germaine Taillefer, identified with the group of modern French composers known as "The Six," which also included Milhaud, Honegger and Poulenc. The music is a game of "La Typhlophilie," an ancient Breton sport, and "Cache-Cache Mitoula" (hide-and-seek). Modern French music figured largely on the program; one of the suite of three caprices in Debussy's little-known "En Blanc et Noir," "The Top," by Jean Baptiste Ouerquy, who composed several hundred light piano pieces, Milhaud's "Braziliers," and Ravel's "Empress of the Pagodas." The light, sure, playful quality of these interpretations was fascinating. Another gem was Taillefer's arrangement of the lilting English folk song, "Sussex Milkmaids."

Two seasons ago Bartlett and Robinson introduced to Toronto an arrangement of the Scottish "Keel Row," by a gifted young Saskatoon composer, Thomas Austin. This brisk and infectious arrangement was originally composed for the first Chicago appearance of Eby and Bedford, and is dedicated to them. They rendered it with joyous abandon. In truth, one could not imagine a more stimulating program.—Toronto Globe and Mail.

Rust Tests

Brandon Experimental Farm Shows Results of Tests On Rust Resistant Oats

The results of rust resistant oats tests conducted at the Dominion Experimental Farm, Brandon, Manitoba, failed to show any great difference in the yielding ability of the varieties Ajax, Exeter, and Vanguard. The average yields for the three years, 1942-44, were: Ajax, 127 bushels; Exeter, 125 bushels, and Vanguard, 121 bushels. For the same period, Banner averaged 110 bushels, and Gopher, 111 bushels per acre.

From the standpoint of maturity, Ajax was three days earlier than Vanguard and six days earlier than Exeter. Both Ajax and Vanguard showed good strength of straw. Exeter was inclined to lodge, being similar in that respect to Banner. Exeter had a somewhat larger seed than Banner and Vanguard but no real difference existed in weight per bushel, Exeter had the highest percentage of hull and Vanguard the lowest.

Acron, a Greek physician, is reputed to have originated fumigation in 473 B.C. when he halted a plague in Athens by burning aromatics in great fires.

Inflation In Poland

Yard Of Cloth Worth About Two Thousand Dollars

For a yard of cloth in Poland today a farmer would have to give about 315,000 pounds of potatoes. If he had the money to pay in cash for the cloth, he would need two thousand one dollar bills. This is inflation.

But in many cases the farmer can't get the cloth at all because his potato crop has been requisitioned by the Nazis. Or the man in the city may not have any cloth to exchange because the Nazis have taken it away against the coming of winter. So the price of the neighbours' potatoes goes higher and the list of the hungry and lengthens as the list of supplies shortens. This is war-inflated inflation.

Before the war the cost of living in Poland was modest compared to many other European countries. After four years of German occupation it has been rising steadily and has become more than many can afford. Now a fifth year has been added and the situation in most parts of the country is worse.

The system of rationing as set up by the Nazis is stringent and in some cases the portions of food allotted per week only exist on paper. So black markets spring up everywhere. German organized and fed. For Germany has the keenest appreciation of the striking power of inflation as a weapon of war and has overlooked no opportunity of directing it to her own infamous ends.

Makes A Difference

Right Color Will Give You An Appetite Say Experts

Maybe it isn't your stomach after all that is causing that loss of appetite... maybe it's your eyes, or more specifically, the things your eyes see.

Color experts have found that appetites may be diminished or utterly destroyed according to the apparent color of the food brought about by use of colored lighting effects and various color schemes on walls and ceilings.

Recognition of the fact has dictated scientific attention to the paint jobs of dining rooms by progressive restaurateurs and hotels. Sometimes, merely the use of a wrong color may mean the failure of a restaurant, while application of a different color could have led to a paying clientele.

Individual color schemes are matters for the experts. In general, however, it has been found that people eat better in dining rooms painted in attractive warm shades, derivatives of yellow. Blue and greens tend to blunt the appetite.

SELECTED RECIPES

ROLLED OATS PASTRY

1 1/2 cups sifted all-purpose flour
OR 2 cups sifted pastry flour
1 teaspoon salt
3/4 cup milk-fatoured fat
1/2 cups rolled oats
1/2 to 1 cup cold water
Mix and sift flour and salt. Cut in the shortening, using two knives or a pastry blender, until mixture resembles fine crumbs. Add rolled oats and mix lightly together. Gradually add water until the dough clings together. Chill before rolling out.

Makes one double crust, 9 inch pie and one 9 inch shell. Bake shells in a hot oven, 400 degrees F., until light brown, about 10 minutes.

CHEESEAPPLE PIE

Pie paste
6 medium-sized apples
1/2 to 1 cup brown sugar
1/4 teaspoon cinnamon
1/4 teaspoon nutmeg
1/4 teaspoon salt
1 tablespoon cornstarch
1 tablespoon butter
1 tablespoon lemon juice
1/2 teaspoon grated lemon rind
1 cup grated cheese
Line a 9-inch pie plate with plain or rolled oats pastry. Peel, core and slice apples thinly. Combine sugar, spice, salt and cornstarch and sift over the apples, stirring gently until they are well coated. Place apples in layers in the pie shell. Dot with butter and sprinkle with lemon juice and rind. Bake, without a crust in a hot oven, 425 degrees F., for 25 to 30 minutes. Remove from oven, sprinkle cheese over pie and return to oven to melt the cheese. Serve hot or cold. Yield: One 9-inch pie.

By the middle of 1944, close to 650,000 units of military transport had been produced by the Canadian automotive industry.

RURAL MEDICAL SERVICE

The insecurity inherent in the geography and economy of Saskatchewan "makes it more urgent to establish a system of socialized medical services on a provincial scale," it is stated in the report recently released by the government-appointed Saskatchewan Health Services Survey Commission. Thus any plan formulated for the future would have to give primary consideration to the development of rural medical services.

If recommendations contained in the report are adopted, it appears that the Saskatchewan government's pre-election promise "to set up a system of socialized health services with special emphasis on preventive medicine" will be headed towards fulfillment.

The commission was headed by Dr. Henry E. Sigerist, professor of history of medicine at Johns Hopkins University, Baltimore, Md. Its report said the history of the last two decades revealed a marked trend towards the socialization of essential medical services. And, in a section dealing with rural health services, the report said the establishment of Saskatchewan's municipal health centers 35 years ago had brought medical care to thousands of people who otherwise would not have had any medical attention. The system had stood the test of time and should be maintained and developed, but with certain defects such as lack of uniformity—remedied.

However, the report added that most municipal doctors are underpaid and over-burdened with work. As a result they had to accumulate contracts and engage in private practice in order to make a decent living. There also was the disappointing fact that many of the best fully prepared for it.

Remedies suggested included the organization of Rural Health Units, served from Rural Health Centres, and a system of minimum salaries for municipal doctors, such salaries to be increased with years of service.

Under such a system the member of a farm family who became sick would seek advice at the Rural Health Centre where he would receive examination and treatment and would be hospitalized if necessary. Patients requiring major surgery or specialized treatment would be referred to the nearest District Hospital where treatment, not available at the centres, would be obtainable. Rare cases presenting difficulties in diagnosis or requiring highly specialized treatments would be referred to larger centres in the bigger cities.

Commenting that District Hospitals should have full-time surgeons on their staffs, the report commented that it is a "waste" to have well-trained surgeons engaged in general practice.

TREES FOR FRAIRIES

Free distribution of deciduous trees grown at the Dominion Forestry Station at Indian Head and Sutherland are available to farmers in the Prairie Provinces only. These farmers may also purchase evergreen trees from the Forestry Station at a price of \$1.00 per 100 trees.

Speaking of antiques, a woman wouldn't pay 10 cents for a 100-year-old hat, but she would give \$20 for a 100-year-old bedspread.

Scholarship

Value \$250.00, and cash awards for original musical compositions. Canadiana of other persons under 22 years on March 1, 1945, the closing date for entries. For full information, apply to the Canadian Junior Division open to competitors over 18 who do not qualify for major prizes. For entry forms, apply to the Canadian Junior Division, 1000 Bloor Street West, Toronto.

Weather Continues Good

The weather in the Chinook district during the past two weeks has been spring-like, the snow has disappeared, which will enable the farmers who still have flax to harvest, to finish combining and also put an end to the Pound keepers worries in regard to stray horses of which numbers have been impounded of late.

Cattle are still on the range and are doing well, this will help out on the winter feed supply, which owing to the dry weather during the summer is very short.

The residents of the town and district are very grateful to the weather man for helping out on the fuel situation to date, owing to the continued mild weather, it has been very easy on the coal bills.

The younger generation may not feel that way about it. They have been fixing the rink and flooding it for the past two weeks but so far no skating. Don't get discouraged boys, winter isn't over yet.

Will He Keep the House
Quiet As a Graveyard

VANCOUVER Dec 5 (CP) Rev. Arthur Roddan, of First United Church, told the Municipal League last night that a man took his wife and six children to a cemetery and left them there while searching for a house. A landlord asked if he had any children?

"Yes, I have six, but they're all in the cemetery," the man replied.

The landlord rented him the house.

Oats and Barley

Twenty-two different varieties of oats appeared among samples sent in to our laboratory, last year, for germination tests. Only eight were included in lists of recommended varieties. They are: Atlas, Banner, Eagle, Excelsior, Laurel (hulled), Legacy, Vanguard and Victory. However, these figures do not provide a true picture, because only 5.3 per cent of the total samples received were of non-recommended varieties. In other words, judging from the material which passed through our laboratory, 94.7 per cent of the oats in the Prairie Provinces, in 1944, grew from seed of recommended varieties.

The situation with respect to barley is similar, but not quite so good. Seventeen different varieties were included in samples sent in for germination; but only eleven are officially recommended. OAC 21, Mensury Oats 60 and Olli are recommended in special areas, for malting purposes; while Blue, Wisconsin 38, Samalta, Rex, President, Neutral, Royal and Trebi are considered suitable feed varieties. Of the feed varieties, all except Trebi are smooth awned. 88.8 per cent of the samples received were derived from recommended varieties. Some varieties are suited to some areas and others to others. Detailed recommendations may be obtained from Dominion Experimental Farms, Provincial Departments of Agriculture, Universities or Line Elevators Farm Service.

Line Elevator agents are authorized distributors of seed grain for Crop Improvement Associations in Manitoba and Alberta, and for the local growers' Association in Saskatchewan. Farmers are invited to consult them about germination tests and seed supplies.
